

Dear Sauk Centre Families,

I would like to take this opportunity to introduce K-12 by Elior, the new Foodservice Management Company for the upcoming school year. Our mission starts with the simple idea that *Every child deserves a great meal*. We understand that when students don't get food that fuels their bodies and minds, their learning and future can suffer.

Our purpose is to strengthen the connections between students and great meals to fuel their education and future success by making mealtime the best part of their day. We have over 50 years of experience partnering with school districts across the United States. We have endless resources to make the Sauk Centre School District food program successful.

This coming school year, we have some exciting changes in the program. The high school students will have the opportunity to enjoy offerings from a new smoothie and coffee bar or a quick breakfast from our Breakfast Cart.

In the elementary lunchroom, we updated some of the equipment to allow for food to be prepared as needed allowing for a more fresh, better tasting meal. We will also engage the students in some fun events throughout the school year.

Our efforts this year will be led by our Food Service Director, Colleen Miller, a Sauk Centre veteran of 17 years. Make sure you stop and say hi and introduce yourself to Colleen.

We are so excited to be a part of the Sauk Centre School District community. We look forward to servicing your children. If you have any questions, suggestions, or concerns, please do not hesitate to reach out to us.

Warmest regards,

Jonathan Barnes
District Manager
