

Greetings from the Community Education Office!

By: Brent Lieser
Community Ed. Director

It is hard to believe that we are halfway through the school year. Where did 2019 go is a question I ask myself as I look forward to the activities and events that 2020 will bring.

Geri and I would like to thank all of the school and community members that have stepped up and offered your talents or presented a class idea to us. We also have partnered with the 510 ArtLab here in Sauk Centre and we are excited to increase a wide variety of artistic classes and events. Sharing your talents doesn't require that you are an expert, you just have to be willing to tell others what you know to spark an interest in them. Call us, or the 510 ArtLab, and let's talk about what you do, know or have learned. We can create a class with a format that matches your comfort level and style. Perhaps it will be a hands-on class where you help them step by step or maybe a presentation is a better fit. Whatever you do, however you share it; someone will thank you!

Thank you to our Community Education Advisory Committee members. The purpose of this advisory committee is to provide input into the planning, growth, development and evaluation of Community Education programs. Meetings are held quarterly throughout the school year. Our committee members include: Cheryl Lawinger, Jeanne Bushard, Tom Trutna, Jeff Schuster, Tim Kampsen, Amy Millard, Greta Kerfeld, John Rasmussen and Geri Nienaber.

Thank you and Happy New Year!

Deadlines are Important

Please pay particular attention to the class and deadline dates. Having deadlines helps us offer a better experience for you. Registrations and deadlines help us get properly organized before a class or activity can begin. If you do not meet the deadlines, we cannot offer a quality program and it becomes a chain reaction of events.
